- React
- JavaScript
- TypeScript
- Ruby
- HTML
- CSS
- Regex

Education

- **ACADEMY XI - SYDNEY**
 - Software Engineering
- **University of Manchester**
 - MSc Project Management
- **IAU**
 - BSc Civil Engineering

WORK EXPERIENCE

Renomate App (Sydney)

December 2021 - Present
[renomate.app](#)

Frontend Developer

- Design and develop dynamic and responsive web pages using HTML, CSS, JavaScript, and React.
- Create innovative, flexible and user-friendly websites and collaborate with the development team members to find the best solutions to complex problems.
- Implement responsive web design principles to ensure the web application renders well across multiple devices (desktop, tablet, mobile).
- Ensure all pages are optimised for speed and performance by eliminating unnecessary scripts/styles.
- Experience with RESTful APIs (using JSON format).
- Progress projects and track issues on Jira, resolve them with Agile methodology and get familiar with Scrum and Kanban practice.
- Participate in peer code reviews and review others' code when requested.
- Use version control tools appropriately depending on the task and participate in daily standups and biweekly sprint planning meetings.
- Interact with back-end systems and cooperate with backend engineers.

Freelance

March 2020 - Dec 2021

Web Developer

- Design the presentation layer using CSS, bootstrap, Material UI, styled component etc.
- Implement the client-side functionalities using JavaScript and React Framework.
- Communicate with clients and manage ongoing projects and maintenance requests.
- Work with product designers and founders to build web pages with a focus on an extraordinary client-side experience.
- Identify and take actions for issues to ensure continuous improvement.
- Translate the client's technical requirements into code.
