

PROFILE

Front-end Developer with a proven ability to collaborate effectively with other developers while spending extra time to be mentored. Enjoy working closely with team members, passionate about learning new skills, with a desire to tackle more complex problems and continue to find techniques to maximise user efficiency. I've attended a 1000+ hour coding boot-camp to learn new languages while sharpening existing skills. Ready to apply my passion for coding to a talented engineering team to develop quality solutions.

Expertise

- HTML
- CSS
- BOOTSTRAP
- JAVASCRIPT
- REACT
- RUBY
- STYLED COMPONENT
- MATERIAL UI
- GIT
- JIRA

Certifications

- [HTML](#)
- [CSS](#)
- [JavaScript](#)
- [React](#)

Learning - on going

- REDUX
- RAILS
- SASS
- HTTP
- RACK
- SINATRA

Education

- **ACADEMY XI - SYDNEY**
 - Software Engineering
- **University of Manchester**
 - MSc Project Management
- **IAUM**
 - BSc Civil Engineering

WORK EXPERIENCE

Renomate App, January 2022 - Present

FRONTEND DEVELOPER

<https://renomate.app>

- Design and develop dynamic web pages using HTML, CSS, JavaScript, and React.
- Collaborate with a development team to create innovative, attractive and user-friendly websites.
- Build efficient, reusable, and scalable front-end abstractions and systems.
- Apply front-end components with the various frameworks.
- Implement responsive web design principles to ensure the web application renders well across multiple devices.
- Translate the client's technical requirements into code.
- Participate in design and code reviews with other engineers.
- Test and update web applications so that they can be used on all web browsers.
- Communicate with other team members to figure out the best solutions to difficult problems.
- Plan and prioritise projects and tasks while working under pressure to meet deadlines.
- Interact with back-end systems and cooperate with backend engineers.

Academy Xi , February 2022 - Present

Software Engineering - Intensive Participant

<https://academyxi.com>

- Nominated to enrol on the Software Engineering Transform program, facilitated by Flatiron School. Whilst this is also education, the commitment is a minimum of 30 hours per week with task and project requirements.
- Learning back-end development skills to become a Full-stack developer along with creating several web pages from scratch - using CSS3, HTML5, Vanilla JavaScript, VS Code, React.js, Git terminal (Git Bash), GitHub, NPM.

Freelance , March 2020 - Jan 2022

Web Developer

- Design and develop dynamic web pages using HTML, CSS, and JavaScript.
- Communicate with clients and manage ongoing projects and maintenance requests.
- Work with product designers and founders to build web pages with a focus on an extraordinary client-side experience.
- Identify and take actions for issues to ensure continuous improvement.
- Projects been involved in:
