- Vue Js
- JavaScript
- TypeScript
- HTML
- CSS
- TailwindCSS
- RTL(Jest)
- Git (GitHub)
- Jira/Trello
- Ruby On Rails
- Redux
- Figma
- Bootstrap
- Material UI
- Styled Component
- Node Packages

CERTIFICATIONS

- React
- JavaScript
- TypeScript
- Ruby
- HTML/CSS
- SQL

EDUCATION

Academy Xi - Sydney
Software Engineering

University of Manchester
MSc Project Management

WORK EXPERIENCE

[Ankor Software \(Sydney office\)](#)

ankor.io

Frontend Engineer

2022 - 2023

- Migrate from React to Vue by creating Vue components from React components.
- Design and develop frontend using Typescript, Vue JS and TailwindCSS, where the backend is GraphQL.
- Identify and take actions for issues to ensure continuous improvement.
- Implement responsive web design principles to ensure the web application renders well across multiple devices (desktop, tablet, mobile).
- Ensure all pages are optimised for speed and performance by eliminating unnecessary scripts/styles.
- Followed Agile methodology for software workflow management.

[Renomate App](#)

renomate.app

Frontend React Developer

2021 - 2022

- Design and develop dynamic and responsive web pages using CSS modules, styled component, material UI, JavaScript, and React.
- Create innovative, flexible and user-friendly websites and collaborate with the development team members to find the best solutions to complex problems.
- Experience with RESTful APIs (using JSON format).
- Progress projects and track issues on Jira, resolve them with Agile methodology and get familiar with Scrum and Kanban practice.
- Interact with back-end systems and cooperate with backend engineers.
- Participate in peer code reviews and review others' code when requested.
- Use version control tools appropriately depending on the task and participate in daily standups and biweekly sprint planning meetings.

[Sadra Computer](#)

sadracomputer.com

Frontend Developer

2020 - 2021

- Turn design pages and specific components into HTML, CSS, and JavaScript and React.
- Implemented websites and landing pages from concept through deployment.
- Analyse UI/UX design for responsive layout for improved usability.
- Communicate with clients and manage ongoing projects and maintenance requests.
- Collaborate with product team members to implement new feature developments.
