## PROFILE

Front-end Developer with a proven ability to collaborate effectively with other developers while spending extra time to be mentored. Enjoy working closely with team members, passionate about learning new skills, with a desire to tackle more complex problems and continue to find techniques to maximise user efficiency. Ready to apply my passion for coding to a talented engineering team to develop quality solutions.

## SKILLS

- HTML
- CSS
- BOOTSRAP
- JAVASCRIPT
- TYPESCRIPT
- REACT
- RUBY
- STYLED COMPONENT
- MATERIAL UI
- NODE JS
- GIT
- JIRA

## Certifications

- [HTML](#)
- [CSS](#)
- [JavaScript](#)
- [React](#)
- [Ruby](#)
- [Regex](#)

## Learning - on going

- REDUX
- SQL
- RAILS
- SASS
- HTTP
- RACK
- SINATRA

## Education

- **ACADEMY XI - SYDNEY**
  - Software Engineering (Graduation Dec 2022)
- **University of Manchester**
  - MSc Project Management
- **IAU**
  - BSc Civil Engineering

## WORK EXPERIENCE

### Renomate App, December 2021 - Present

<https://renomate.app>

#### Front Developer

- Design and develop dynamic and responsive web pages using HTML, CSS, JavaScript, and React.
- Collaborate with a development team to create innovative, flexible and user-friendly websites.
- Implement responsive web design principles to ensure the web application renders well across multiple devices (desktop, tablet, mobile).
- Progress projects and track issues on Jira, resolve them with Agile methodology and get familiar with Scrum and Kanban practice.
- Participate in peer code reviews as appropriate for the task at hand and reviewed others' code when requested.
- Use version control tools (GitHub) appropriately depending on the task at hand and participated in daily standups when applicable.
- Participate in daily standups and biweekly sprint planning meetings as well as adhere to company coding best practices at all times during development.
- Communicate with other team members to find the best solutions to complex problems.
- Ensure all pages are optimised for speed and performance by eliminating unnecessary scripts/styles where possible.
- Plan and prioritise projects and tasks while working under pressure to meet deadlines.
- Interact with back-end systems and cooperate with backend engineers.

### Academy Xi , February 2022 - Present

<https://academyxi.com>

#### Software Engineering - Intensive Participant (Part-Time)

- Nominated to enrol on the Software Engineering Transform program, facilitated by Flatiron School(USA). Whilst this is also education, the commitment is a minimum of 30 hours per week with task and project requirements.
- Learning back-end development skills to become a Full-stack developer along with creating several web pages from scratch - using CSS3, HTML5, Vanilla JavaScript, VS Code, React.js, Node js, Git terminal (Git Bash), GitHub, NPM.
- Additional skills gained through this process: growth mindset, future orientation, effective communication, exposure to guest speakers, collaboration and more.

### Freelance , March 2020 - Dec 2021

#### Web Developer

- Design the presentation layer using CSS, bootstrap, Material UI, styled component etc.
- Implement the client-side functionalities using JavaScript and React Framework.
- Communicate with clients and manage ongoing projects and maintenance requests.
- Work with product designers and founders to build web pages with a focus on an extraordinary client-side experience.
- Identify and take actions for issues to ensure continuous improvement.
- Translate the client's technical requirements into code.
- Projects have been involved in:
