PROFILE

Frond-end Developer with a proven ability to collaborate effectively with senior developers while spending extra time to be mentored. Enjoy working closely with team members to ensure my workloads are effectively redirected to bottlenecks and picking up the additional slack when necessary. I attended a 1000+ hour coding boot-camp to learn new languages while sharpening existing skills. Ready to apply my passion for coding to a talented engineering team to develop quality solutions.

Expertise

- HTML
- CSS
- BOOTSRAP
- JAVASCRIPT
- REACT
- RUBY
- STYLED COMPONENT
- MATERIAL UI
- GIT
- JIRA

Certifications

- HTML
- CSS
- JavaScript
- React

Learning - on going

- REDUX
- RAILS
- SASS
- HTTP
- RACK
- SINATRA

Education

- **ACADEMY XI - SYDNEY**
  - Software Engineering

- **University of Manchester**
  - MSc Project Management

- **IAUM**
  - BSc Civil Engineering

WORK EXPERIENCE

Renomate App, January 2022 - Present   https://renomate.app

FRONTEND DEVELOPER

- Design and develop dynamic web pages using HTML, CSS, JavaScript, and React.
- Collaborate with a development team to create innovative, attractive and user-friendly websites.
- Create reusable, effective, and scalable JavaScript code.
- Apply front-end components with the various frameworks.
- Implement responsive web design principles to ensure the web application renders well across multiple devices.
- Translate the client's technical requirements into code.
- Test and update web applications so that they can be used on all web browsers.
- Plan and prioritise projects and tasks while working under pressure to meet deadlines.

Academy Xi , February 2022 - Present   https://academyxi.com

Software Engineering - Intensive Participant

- Nominated to enrol on the Software Engineering Transform program, facilitated by Flatiron School. Whilst this is also education, the commitment is a minimum of 30 hours per week with task and project requirements.

- Learning back-end development skills to become a Full-stack developer along with creating several web pages from scratch - using CSS3, HTML5, Vanilla JavaScript, VS Code, React.js, Git terminal (Git Bash), GitHub, NPM.

Freelance , March 2020 - Jan 2022

Web Developer

- Design and develop dynamic web pages using HTML, CSS, and JavaScript.
- Communicate with clients and manage ongoing projects and maintenance requests.
- Identify and take actions for issues to ensure continuous improvement.
- Projects been involved in:
